MEMORANDUM THRU

FOR:

SUBJECT: Memorandum of Reference

1. I have served nine years in the Army. Three of those years were on active duty with service in Ft. Lewis, Wa and Korea. The remainder of my career has been spent in the National Guard. During this time, I have been deployed to secure a chemical weapons depot and Iraq twice. I have served as a Sniper Instructor out of Camp Joseph T. Robinson, North Little Rock, AR for the past three years. Recently, I was privileged to attend a tracking course developed by the Centurion Training Group in Pawhuska, Oklahoma.
2. As a fellow instructor that teaches tracking and counter-tracking, I was impressed by the cadre's professionalism and humbled by their knowledge of tracking and counter-tracking techniques. I will definitely be a more knowledgeable and effective instructor in this field because of the course. The instructors were all very dedicated to training. They volunteered their personal time, without pay, to train soldier skills that are an invaluable asset to the GWOT.
3. As an army sniper, I believe that tracking and counter-tracking are important skills. In the war on terror, soldiers are now facing an asymmetric threat on the battlefield. The art of tracking is another important tool that they can use to combat this threat.
4. POC is the undersigned at (501) 212-4553.
