MEMORANDUM THRU

FOR:

SUBJECT: Memorandum of Reference

1. I have served nine years in the Army National Guard. During this time, I have been deployed to Bosnia-Herzegovina and to Iraq. I now serve as a Sniper Instructor out of Camp Joseph T. Robinson, North Little Rock, AR. Recently, I was privileged to attend a tracking course developed by the Centurion Training Group in Pawhuska, Oklahoma.
2. As a fellow instructor, I was impressed by the cadre's professionalism and their knowledge of tracking and counter-tracking techniques. The instructors were all very dedicated to training. They volunteered their personal time, without pay, to train soldiers.
3. As an army sniper, I believe that tracking and counter-tracking are important skills. In the war on terror, soldiers are now facing an asymmetric threat on the battlefield. The knowledge of tracking is another important tool that they can use to combat this threat.
4. POC is the undersigned at (501) 212-4577.
